

Amendments to the Claims

The following listing replaces all prior versions and listings of claims in the application.

Listing of Claims

1. (Currently Amended) ~~A~~ An immunogenic complex comprising a negatively-charged organic complex and a charged antigen, where (A) said organic complex comprises a saponin and a sterol and (B) said organic complex and antigen are electrostatically associated and ~~(B) said complex generates a cytotoxic CTL response when administered to a mammal.~~

2. (Currently Amended) The immunogenic complex according to claim 1 wherein said antigen is ~~positively charged~~ comprises a positive charge.

3. (Currently Amended) The immunogenic complex according to claim 2 wherein said antigen is a protein or ~~derivative or equivalent thereof~~ comprises a peptide region.

4. Canceled.

5. Canceled.

6. (Currently Amended) The immunogenic complex according to claim ~~5~~ 1 wherein said ~~adjuvant organic complex~~ is a naturally negatively charged adjuvant complex which has been modified to increase the degree of its negative charge.

7. (Currently Amended) The immunogenic complex according to claim ~~5~~ 2 or 3 wherein said ~~protein is a naturally positively charged protein which~~ antigen has been modified to increase the degree of its positive charge.

8. (Currently Amended) The immunogenic complex according to claim ~~5~~ 3 wherein said ~~adjuvant organic complex~~ is a naturally negatively charged adjuvant complex which has been modified to increase the degree of its negative charge and said ~~protein peptide~~ is a naturally positively charged protein antigen which has been modified to increase the degree of its positive charge.

9. canceled.

10. canceled.

11. canceled.

12. (Currently Amended) The immunogenic complex according to claim 5 1 wherein said adjuvant is comprises a phospholipid.

13. (Currently Amended) The immunogenic complex according to claim 12 wherein said phospholipid is a phosphoglyceride.

14. (Currently Amended) The immunogenic complex according to claim 13 wherein the phosphoglyceride is selected from the group consisting of phosphatidyl inositol, phosphatidyl glycerol, phosphatidic acid and cardiolipin.

15. (Currently Amended) The immunogenic complex according to claim 12 wherein said phospholipid is lipid A.

16. (Currently Amended) The immunogenic complex according to claim 15 wherein the lipid A is selected from the group consisting of diphosphoryl lipid A and monophosphoryl lipid A.

17. (Currently Amended) The immunogenic complex according to claim 1 wherein said complex induces a cytotoxic T-lymphocyte response when administered to a mammal.

18-52. canceled.

53. (New) An immunogenic complex comprising a negatively-charged organic complex and a charged antigen, where (A) said organic complex and said antigen are electrostatically associated and (B) said complex generates a cytotoxic CTL response when administered to a mammal.

Handwritten notes: "F" with an arrow pointing to claim 17, and "Conced" written vertically.
